

REMARKS

Applicants request that the Examiner enter the amendment prior to continuing examination of the application. Claim 28 has been cancelled. Claims 21, 25, and 33 have been amended to recite aspects of the invention. Applicants submit that the new claim does not introduce new matter.

Applicants believe that the claims, as amended, are in condition for allowance and respectfully requests that the claims be allowed. Specifically, Applications submit that the cited references (*Anupam* and *Matson*) do not disclose a uniform resource locator (URL) embodied in a tangible computer-readable medium, that includes a retrieve all components flag indicative of whether all complements associated with the navigation selection should be retrieved when executing the navigation selection, as recited by claim 25. Claims 21 and 33 have been amended to recite a corresponding limitation.

Accordingly, it is believed that the present application now stands in condition for allowance, and allowance of the claims is respectfully requested. Early notice to this effect is earnestly solicited. Should the Examiner believe a telephone call would expedite the prosecution of the application, he is invited to call the undersigned attorney at the number listed below.

Conclusion

Having addressed all issues set out in the office action, Applicant respectfully submits that the claims are in condition for allowance and respectfully request that the claims be allowed.

If the Examiner believes any issues remain that prevent this application from going to issue, the Examiner is strongly encouraged to contact Gero McClellan, attorney of record, at (336) 643-3065, to discuss strategies for moving prosecution forward toward allowance.

Respectfully submitted, and
S-signed pursuant to 37 CFR 1.4,

/Gero G. McClellan, Reg. No. 44,227/
